ABOUT ME

As a dedicated computer science student, I am passionate about pursuing a career as a software engineer. My academic journey has equipped me with proficiency in multiple programming languages including C, C++, Java, and SQL. I am eager to improve my skills and knowledge to contribute to innovative software development projects and continuously expand my expertise in this dynamic field.

EDUCATION

August 2023 - Present	**SASTRA Deemed University**
Tanjore, India	Bachelor of Technology, Computer Science & Engineering CGPA 9.6/10

EXPERIENCE

September 2024 - Present	**Member of App Development Cluster**
Association of Computing Engineers (ACE)	As an App Developer in the Association of Computing Engineers (ACE), I collaborated with a talented team to design and implement intent-based workflows and perform web scraping for API development. This experience strengthened my skills in modern app technologies, collaborative development, and building impactful digital solutions.
June 2025 Sri Sathya Sai Seva Organisations (India)	**Certificate Automation** Managed participant data and automated the generation of 300+ certificates for an online summer course, conducted by Sri Sathya Sai Seva Organisations (India). Leveraged Google Sheets, Autocrat, and Google Slides for dynamic certificate creation and distribution, ensuring efficiency and accuracy.

PROJECTS

DLBTS - 2025   June 2025

A Firebase - powered web app for managing registration, analysis and judging of participants across 45 events for DLBTS - 2025 conducted by Sri Sathya Sai Seva Organisations (India), Kancheepuram South District, Tamilnadu.

- Designed role-based dashboards for Admins, ECs, and Judges.
- Admins/ECs: manage registrations, filter by group/event/district, view leaderboards.
- Judges: grade participants (individual & group) with real-time updates.
- Added alerts for judges if participants were engaged in two events.
- Developed attendance system for on-site registration desk.
- Automated leaderboard generation for individual & group events.
- Secured with Firebase Authentication and real-time Firestore database.
